The Rs 6-crore project will offer walking track, botanical plants, replicas of forts and Warli art decoration to residents of Sion and Chembur East next month

The Brihanmumbai Municipal Corporation (BMC)'s plan to convert a dumping ground into a botanical garden will achieve a two-fold aim when it opens to public next month. One, it will provide the residents of Sion and Chembur East area a recreation spot and secondly, it will keep encroachers and anti-social elements at bay.
